Scope: Release of **test-set ground-truth answer keys** ("**Test Labels**") of the MOMENTS test set for evaluation.

License context: Use remains subject to **CC BY-NC-SA 4.0**. This agreement adds stricter test-label terms on top of that license.

2) Definitions

- **Test Labels:** The answer keys for MOMENTS **test** questions.
- **Validation Set:** The officially provided non-test split for training/tuning.
- **Direct Lab Members:** Members working under the **same PI** at the same Institution.

3) Grant

Provider grants the PI's Lab a **non-exclusive, non-transferable, revocable, research-only** right to access the Test Labels **solely to evaluate** systems on MOMENTS.

4) Required Checkboxes (must all be checked)

☐ **Research-only.** Use is strictly **non-commercial** academic research consistent with CC BY-NC-SA 4.0.

☐ **No sharing outside the PI's Lab.** Test Labels may be shared **only** with **direct lab members** under the same PI. **No distribution** to collaborators, other labs, contractors, or public repos.

☐ **No training/tuning.** You will **not** use Test Labels for **any** training, fine-tuning, instruction-tuning, RLHF, distillation, prompt calibration, ensembling/model selection, **hyperparameter search**, early stopping, or any process that influences model parameters or settings. **Use the Validation Set for that.**

☐ **No disclosure.** Do **not** publish, post, or include any portion of the Test Labels (or derivatives revealing the answers) in papers, benchmarks, code, repos, or datasets. Report only aggregate metrics.

☐ **Security.** Store Test Labels in **private, access-controlled** locations limited to the PI's Lab.

☐ **Deletion on request.** Upon Provider request or at project end, you will **delete** the Test Labels and any copies.

☐ **Attribution & license.** Publications using MOMENTS will **cite** the dataset/paper and acknowledge CC BY-NC-SA 4.0.
